

Total Automation Intelligence For Manufacturing

Manufacturing environments depend on continuous movement, coordinated workflows, and reliable material flow to keep production running efficiently. FORMOVA helps manufacturers create more connected, adaptive operations through intelligent mobile automation designed to streamline production logistics, reduce manual handling, improve safety, and support uptime across the facility.

Areas of Expertise

- Raw material transport and line-side delivery
- Work-in-process (WIP) movement
- Finished goods handling and staging
- Just-in-time material replenishment
- High-volume pallet and unit load handling
- Hazardous material and specialty product transport
- Inventory tracking and traceability
- Multi-line production support

Applications

- Line-side delivery and replenishment
- WIP transport
- Finished goods transport and staging
- Automated storage and retrieval
- Pallet transport and transfer
- End-of-line automation
- Mixed fleet coordination
- Trailer loading and unloading
- End-of-line retrieval
- Automatic trailer loading/unloading

FOR moving smarter with mōt.OS®

**One platform,
total control**

mōt.OS® is the intelligence behind the motion, orchestrating multiple fleets from multiple manufacturers to bring visibility and coordination to your entire operation.

FOR moving forward with long-term support

**A partner in performance, every
step of the way**

FORMOVA provides ongoing support to keep your systems running at peak performance, from proactive maintenance to responsive service.

FOR moving more with advanced vehicles

**Engineered for performance in
the real world**

From compact mobile robots to heavy-duty AGVs, FORMOVA's vehicles are engineered to perform in complex environments where precision, safety, and reliability are critical.

How FORMOVA keeps you forever in motion

A Legacy of Expertise

Automation pioneers
for 40+ years

Field-Tested Performance

700+ systems
in operation

Support Without Limits

Global coverage
with rapid response

Proven Automation Expertise

- Every system is shaped by in-field insight and continuous improvement, designed to perform reliably today and adapt to tomorrow's demands.

Safety and Integrity Engineered In

- Our systems are engineered to reduce risk, minimize human error, and meet rigorous global standards.

Partnership That Keeps You Moving

- We're a long-term partner who works alongside your team, from design through optimization, and are accountable to your system's performance.

Motion That Adapts and Scales

- No two operations are identical. That's why we provide automation for various industries that integrates seamlessly and scales with demand.
